Who is Fraser Auction Service Ltd?

Fraser Auction Service Ltd was founded by Stan & Beatrice Fraser in 1979. In 2001 the business was purchased by Scott & Lori Campbell, who along with their sons Jesse & Kade continue to operate it to this day. We are family owned, family operated, just like your farm. We pride ourselves in working personally with you on your sale from start to finish, developing friendships lasting far beyond the auction day.

We strive to provide our buyers and sellers with an enjoyable auction experience, whether you are a regular auction attendee or a first-timer who could use a little help getting comfortable with the bidding process. With all the new online sales and the fast-changing auction world, we strive to stay at the head of the pack with updated websites and bidding platforms second to none. Have a question? Just ask, we are here to help.

We pride ourselves in providing personal, professional, service while developing relationships with both buyers and sellers. Your success is our success!

Our award winning auctioneers ensure you an exciting auction event. Even in this time of online auctions you will still be bidding to the chant of the auctioneers.
